# The History of Rombauer Vineyards

Founded in 1980 by Koerner and Joan Rombauer, the winery began with 40 acres on the eastern slopes of the Napa Valley. The Rombauers' passion for wine was deeply rooted in their family heritage, with Koerner's ancestors originating from the winegrowing region of Rheingau, Germany.

Today, Rombauer Vineyards continues to be family-owned and operated, with a steadfast commitment to producing wines of exceptional quality and character that honor their rich heritage while embracing innovation in viticulture and winemaking techniques.
